

# Multi-Generation Farm Transition Planning

This interactive farm transition program is focused on helping farm families dive deeper into conversations about:

- family and business goals,
- job responsibilities,
- financial needs of farms and families,
- inheritance considerations, and
- mechanisms of transfer.

Do you have questions about how to begin working through these challenging topics? Or, have you already started your plan and want to learn more? University of Minnesota Extension and the Minnesota State College and University System partner to offer hands-on farm transition education focused on multi-generation farm businesses. We offer two no-cost sessions from which to select. Pick **either/or**.

**Virtual:** Join us for a four part Zoom series, Thursdays at noon – 1 pm on February 4, 11, 18, and 24, 2021. In between sessions, we will recommend further completion of activities.

**In-person retreat (tentative):** Join us at Alexandria Tech and Community College, March 12, 2021 4:30 - 8:30 pm and Saturday, March 13, 2021 8:00 am – 4:00 pm. Registration is capped at 25.

An emphasis of the sessions is how to transfer both the “financial business” *and* how to transfer the “management and responsibility” of the farm business. We provide time for hands on planning and discussion for the farm family. Therefore, the retiring generation and incoming generation should attend the sessions together, including spouses, partners and/or other relevant parties.

Register at [z.umn.edu/generationaltransition](https://z.umn.edu/generationaltransition). For registration questions, contact Cindy Kantor at 320-308-6641 or at [CKantor@sctcc.edu](mailto:CKantor@sctcc.edu). For questions about the course, contact Megan Roberts at [meganr@umn.edu](mailto:meganr@umn.edu). Instructors for these sessions are Jim Molenaar, Megan Roberts, and Amber Roberts. Visit [z.umn.edu/farmtransition](https://z.umn.edu/farmtransition) for more farm transition educational resources.
